**Genetics Hub Genetic Counselor (PVL 84353)**

**Education:** Master's degree required in genetic counseling or a related field.

**Appointment Percentage:** 60% – 100%

**Full Time Salary Rate:** minimum salary would be $50,000 annual – depending on qualifications.

**Number of Positions:** 1

**License/Certification:** American Board of Genetic Counseling Certification preferred; Board “eligibility” preferred.

**Qualifications:**

Well-qualified applicants will have the following preferred experience:

- Experience in genetic counseling or public health genetics.
- Experience in neurodevelopmental disability, biochemical genetics, and/or pediatric genetics clinics.
- Preferably at least three years' experience or training in maternal and child health systems.
- Ability to initiate and complete tasks independently.
- Ability to prioritize and effectively manage multiple tasks and responsibilities.
- Communication skills: oral, written and including experience with web-based and social media.
- Organizational skills and attention to detail.
- Strong interpersonal skills working with small and large teams.

**Job Summary:**

This position is expected to provide genetics and newborn screening consultation and information to agencies, organizations and individuals for the promotion of the optimal health of all families in the state; coordinate activities of the Genetics Systems Integration Hub on a Wisconsin Genetics System (WGS) contract with the WI state Maternal and Child Health (MCH) Title V program; promote awareness and guide fulfillment of the recommendations of the Genetic Advisory Committee for Wisconsin; and ensure all systems integration activities include family leadership, cultural responsivity, evidence-base and collaboration with services and systems supporting individuals with genetic conditions in Wisconsin. Duties also include provision of genetic counseling services as part of the interdisciplinary clinical services provided at the Waisman Center or partner clinics.
