

# Clinical Genetic Counselor – PVL 91656

**Education:** Masters' degree in genetics counseling is required from an accredited Genetic Counseling Program.

**Appointment Percentage:** 100%

**Full Time Salary Rate:** minimum \$60,000 annually – depending on qualifications.

**Number of Positions:** 2

**License/Certification Needed:** Certification as a Certified Genetic Counselor (CGC) from American Board of Genetic Counseling Certification is preferred. Applicants must have Active Candidate status and must obtain certification within 12 months of hire.

**Minimum Number of years or type of relevant work experience:**

Well-qualified applicants will have the following preferred work experience:

- One year of post-graduate experience in clinical genetics and/or medical/patient care counseling preferred. Prior experience working in a genetics counseling setting is preferred.
- Prefix determination will be based on years of relevant work experience. A minimum of 7 years' experience is needed for appointment at the senior level.
- Experience in neurodevelopmental disability, biochemical genetics, and/or pediatric genetics clinics preferred.

**Job Summary:**

The primary purpose of this position is to provide direct clinical services and to participate in clinical activities and training of students within the Genetics and Metabolism Program Area of the Waisman Center Clinics. The Genetics and Metabolism Program provides comprehensive assessment and follow-up services for children with, or at risk for, developmental delays, due to genetic conditions. Assessments are provided by an interdisciplinary team of specialists who work closely with families to provide comprehensive and integrated evaluations and follow-up over time. The team of professionals includes specialties in genetics, genetic counseling, developmental pediatrics, nursing, and nutrition.

These clinical services are provided in partnership between the Waisman Center at UW-Madison, and the UW Health AFCH (American Family Children's Hospital). Duties also include provision of genetic counseling services as part of the interdisciplinary clinical services provided at partner or affiliate clinics. In addition to providing direct clinical services and clinical training to genetic counseling students, this position will participate in clinical research activities within the Waisman Center clinics or at other affiliate clinics.
